Profiles	 MeetPatel  MeetPatel	
Summary	Final year Computer Engineering student with a strong interest in Artificial Intelligence and Machine Learning. Skilled in building machine learning models using Python and popular libraries such as Scikit-learn and TensorFlow. Experienced in data preprocessing, model training, evaluation, and deployment-ready experimentation on platforms like Jupyter and Google Colab.	
Experience	InfoLabz IT Services Web Development Intern	2 Jul - 16 Jul Remote
• Gained hands-on experience with the Django framework, focusing on backend web development. • Learned and implemented the MVC (Model-View-Controller) architecture for scalable project structure. • Worked with JSON data structures for data handling and API integration. • Fetched and displayed data using RESTful APIs in Django-based web applications.		
Education	S.S.Agrawal Institute Of Engineering & Techology Navsari, Gujarat CGPA - 7.96	Sep 2022 - Sep 2026 B.E - Computer Engineering
Projects	House Price Prediction using Linear Regression • Collected and cleaned real estate dataset • Trained a regression model with evaluation metrics (RMSE, R²) • Visualized feature correlations using Seaborn Image Classification with CNN (Keras/TensorFlow) • Built a CNN model to classify handwritten digits (MNIST) • Achieved 98% accuracy using ReLU and Softmax layers Sentiment Analysis using NLP • Used NLP techniques like tokenization, stopword removal, TF-IDF • Trained a logistic regression model to predict movie review sentiments	
Skills	Core Technologies Python, SQL, Java Tools & Technologies VScode, Git, Github, Google Colab, Jupyter Notebook	AI/ML & Data Science Pandas, NumPy, Scikit-learn, TensorFlow, Matplotlib, Power BI, Google Looker Studio, Streamlit Soft skills Communication skills, quick learner, hard working, optimistic, adaptable, leadership quality, prioritizing task etc.
