PROFESSIONAL SUMMARY

I have over 9 years of experience in software development, specializing in PHP, Laravel, SuiteCRM, and Git, with a strong background in leading and mentoring teams. I possess in-depth knowledge of SugarCRM (up to version 6.5) and have worked on Magento e-commerce projects. I am also proficient with Docker and Jira and have consistently delivered high-quality solutions in agile environments. My focus is on optimizing development processes, fostering collaboration, and aligning technical efforts with business objectives to ensure efficient project delivery and long-term success.
