Dreamers Technologies Pvt Ltd. (1 month)

Frontend Developer Intern Actively engaged in web creative design and development.

PROJECTS

FRONTEND

- **Shopping Website:** A sleek and responsive e-commerce platform built using React.js, Redux, and Material-UI, featuring seamless product browsing, cart management.
- **Videography Course Landing Page:** A captivating and user-friendly landing page built with React.js and styled components, showcasing course details, testimonials, and a call-to-action for enrollment.

BACKEND

- **Blog Website:** A dynamic blog platform using Node.js, Express, and MongoDB, enabling users to create, like, unlike, and comment on posts with robust authentication and authorization.
- **Dev Tinder:** A developer matchmaking backend with Node.js, Express, and MongoDB, offering features like scrolling through profiles, sending/accepting/rejecting requests, marking interests, and managing developer connections.
