

SHEETAL PAWAR

Bidar, Karnataka | 9902438161 | pawarsheetal1610@gmail.com | [LinkedIn](#) | [Github](#)

OBJECTIVE:

Aspiring Software Engineer with a strong foundation in computer science and hands-on experience in software development through academic projects and internships. Eager to apply my programming skills and problem-solving abilities to contribute to innovative software solutions. Motivated to learn and grow within a dynamic tech environment.

TECHNICAL SKILLS:

Programming Languages: Java, Python, C

Web Technologies: HTML, CSS, JavaScript

Data Analysis: Power Bi, Tableau, EDA, Excel Advance

Databases: SQL, MYSQL

Cloud Platform: AWS, Devops

Tools & IDEs: Visual Studio Code, Eclipse, Jupiter Notebook

EDUCATION:

B.Tech in Computer Science and Engineering with 8.6 CGPA	2021-2025
Guru Nanak Dev Engineering College Bidar, Karnataka	

12 th Karnataka State Board with 80%	2021
Shaheen Group Of Institutions, Bidar, Karnataka	

PROJECTS:

TRAVELLER CITY INFORMATION (Java):

This project is a platform for users to explore cities, tourist attractions, dining options, and accommodations. It uses HTML, CSS, and JavaScript for the front end and JDBC, Servlets, JSP, and SQL for backend and database management, it offers a seamless experience for accessing essential city-related information.

FIRE EXTINGUISHING ROBOT (IOT):

An IOT-based project, a robot that detects fire and extinguishes it using water. It is controlled by an Arduino Microcontroller. It is wireless and can be connected to a mobile through HC-05 Bluetooth module. It detects the fire using flame sensor and puts off the fire using mini pump.

MOBILE RECHARGE APPLICATION (Java):

Developed a mobile recharge application using Object Oriented Programming (OOP) principles and Java. Supported recharge functionality for five different SIMs. Implemented payment methods including debit cards, UPI, and credit cards. Added OTP confirmation for secure transactions.

FRAUD DETECTION IN DIGITAL PAYMENTS:

The UPI Fraud Detection project aims to develop a robust and adaptive system for detecting and preventing fraudulent activities. Applied Data Analysis using Python and ML Algorithms to identify suspicious transaction patterns in real-time. Implemented a real-time monitoring system which continuously monitors the transactions using ML algorithms like Random Forest, Logistic Regression.

EXPERIENCE:**Internship:****SKILL BOUT:**

11-11-2022 to 30-11-2022

Boosted Python programming proficiency & problem-solving skills through the development of a 'tic-tac-toe' game during the Python internship at Skill Bout, which also emphasized time management & adaptability as key soft skills.

SEVENTH SENSE TALENT SOLUTIONS:

25-10-2023 to 23-12-2023

Explored crucial areas of DevOps practices & AWS cloud fundamentals during the Seventh Sense Talent Solutions internship, emphasizing continuous integration, continuous delivery, & automation in DevOps. We divided into AWS cloud fundamentals, including Infrastructure as Code (IaC), scalability, security, and innovation.

CERTIFICATIONS:

Zscaler Cybersecurity Fundamentals: [Zscaler](#)

Infosys Springboard Basics of Python

IEEE (CIS & WIS)

Python for Data Science (IBM)

Full Stack Certification

SOFTSKILLS:

Communication Skills: Ability to convey ideas clearly and effectively.

Problem-Solving: Thinking critically to identify and resolve issues and Good in debugging.

Adaptability: Building and maintaining positive relationships.
