Web Developer (Pune)

Collin IT solution

Mar-2022 -to April-2023

web developer with a passion for crafting responsive and visually appealing websites. Leveraging hands-on experience gained during a successful web developer internship at [Collin IT Solutions], I bring proficiency in HTML, CSS, JavaScript, WordPress,PHP and a strong understanding of web development principles.

Accomplishments:

- Program in PHP, SQL and JavaScript and other libraries as needed
- Upload scientific articles and translated content to Wordpress
- Assist in development of a science based webpage
- Working with HTML, CSS and JavaScript, PHP
- Potentially utilizing JavaScript frameworks like React and Vue.js
- The first objective would be learning to take a Photoshop file and converting that into semantic HTML. While reviewing accessibility and SEO for the given page
