 SUMMARY

Enthusiastic and detail-oriented Computer Engineering student with hands-on experience in frontend development using React.js and mobile app development using Flutter. Currently pursuing internships in React.js and Artificial Intelligence, with strong exposure to real-time projects including face recognition using PCA and ANN. Passionate about building responsive, user-friendly web and mobile applications

 PERSONAL DETAILS

Current Location: Daman, India

Date of Birth: March 11, 2003

Gender: Female

 EDUCATION

Graduation Government Engineering College, Daman
Gujarat Technological University (GTU), Ahmedabad
Expected Graduation: Dec 2025

Class XII Gujarat Board
with 51% in 2021

Class X CBSE Board
with 67% in 2019

 INTERNSHIP EXPERIENCE

Flutter Intern – Infolabz IT Services Pvt. Ltd. | Nov 2024

- Completed a 15-day internship focusing on Flutter basics, cross-platform app development, and Material UI.
- Created small mobile UI components and integrated basic REST APIs for Android/iOS.

Tools: Flutter, Dart, Android Studio, Material UI

React.js Intern – Infolabz IT Services Pvt. Ltd. | Jan 2025 – Apr 2025

- Built responsive UI components using React.js, HTML, CSS, and JavaScript.
- Integrated REST APIs using Axios and managed state with React Hooks.
- Converted static designs into interactive components ensuring cross-browser compatibility.

Tools: React.js, JavaScript, HTML5, CSS3, Bootstrap, VS Code, Git

Artificial Intelligence Intern – Internship Studio | Jan 2025

- Working on “Face Recognition using PCA and ANN” using Python and Google Colab.
- Applied Principal Component Analysis (PCA) for dimensionality reduction and trained an Artificial Neural Network (ANN) for face classification.

Tools: Python, NumPy, Keras, Google Colab

PROJECTS

Personal Care Products Platform (React.js) – Jan 2025 – Apr 2025

- Built a responsive web platform to showcase personal care products.
- Implemented product listings, category filters, inquiry forms, and feedback sections.

Tech Stack: React.js, HTML, CSS, Axios, REST APIs

API-Based Cross-Platform App using Flutter – Jun 2024 – Jul 2024

- Developed a cross-platform mobile app for Android & iOS using Flutter and Dart.
- Integrated real-time APIs and designed UI using Material Design components.

Tech Stack: Flutter, Dart, APIs, Material UI

Face Recognition using PCA and ANN – AI Internship Project | Jan 2025 – Present

- Implemented a facial recognition system using PCA for dimensionality reduction and ANN for classification.
- Trained the model on facial image datasets and optimized accuracy using Python.

Tools: Python, NumPy, Pandas, Matplotlib, TensorFlow/Keras, Google Colab

SKILLS

Languages: HTML, CSS3, JavaScript (ES6+), Dart, Python

Frameworks/Tools: React.js, Flutter, Bootstrap, Git, GitHub, REST APIs, Material UI, Google Colab

Other: Responsive Web Design, Cross-Browser Compatibility, Debugging, VS Code

Soft Skills: Problem Solving, Communication, Teamwork

Languages Known: Hindi , English , Gujarati

CERTIFICATIONS

- Artificial Intelligence Internship – Jan 2025-Feb 2025
- React.js Web Development Internship – Jan 2025 –April 2025

ADDITIONAL INFORMATION

- Currently seeking full-time opportunities in frontend or software development roles.
- Available for remote or hybrid positions.
