

Aman Yadav

Software Engineer ————— B.E Student

Respected Sir/Madam,

I'm writing to express my keen interest in an internship opportunity at your company. I am currently a third-semester external student pursuing my Bachelor of Engineering (B.E.) degree in Computer Science, and I hold a diploma in Computer Engineering.

I am eager to apply my academic knowledge to real-world projects and contribute meaningfully to a professional team. I have a strong foundation in programming languages like C++, Java, or Python; web development technologies like HTML, CSS, and JavaScript; or databases like SQL. I am a quick and enthusiastic learner, and I believe an internship at your company would provide me with the perfect platform to enhance my skills and gain practical experience alongside my studies.

I am confident that my dedication, problem-solving abilities, and eagerness to learn new technologies would make me a valuable asset to your team. I am excited about the possibility of contributing to your innovative projects.

Thank you for considering my application. I have attached my resume for your review, and I am available for an interview at your earliest convenience to discuss how I can contribute to your team.

Sincerely,

Aman Yadav
