PROFESSIONAL SUMMARY

I have 3.4 years of experience working with SQL, where I write queries to get data from databases and create reports. I understand how to join tables, write stored procedures, and clean data for analysis. I also have basic knowledge of Power BI and have built simple dashboards to show data visually. I enjoy working with data to help teams make better decisions and solve problems.

EXPERIENCE

march 2018 to July 2021

Engeniuspark Technologies Pvt Ltd

Data Analyst

- Used SQL to find and organize data from company databases for reports and analysis.
- Created stored procedures and views to help with regular reporting tasks.
- Worked with teams to understand what data they needed and shared helpful insights.
- Built simple dashboards in Power BI to show key data like sales, customer activity, and performance trends.
- Checked data for errors and made sure reports were accurate and easy to understand.
- Helped find patterns and trends in data to support business decisions.
- Wrote down processes and steps used in reports so others could understand and reuse them.

EDUCATION

Master of Computer Science, Mumbai University, year of passing 2017.
