

Job Title: Wordpress Developer

Ideal Candidate:

As an ideal candidate, you're a WordPress developer who knows how to turn creative visions into dynamic and engaging websites. Your focus will be on crafting intuitive user interfaces, optimizing performance, and ensuring seamless integration across various platforms. Let's take our website—and your career—to the next level!

What you'll be doing:

- Designing and implementing new features and functionality
- Establishing and guiding the website's architecture
- Ensuring high-performance and availability of the website
- Creating responsive designs and turning them into working themes and plugins
- Conducting website performance tests and troubleshooting issues
- Collaborating with clients to understand their design needs
- Managing all technical aspects of the CMS
- Providing training to clients on using WordPress effectively
- Basic knowledge of theme builders such as Elementor, WPBakery, and Gutenberg.

To Succeed this role:

- Proficiency in front-end technologies: HTML5, CSS3, JavaScript, jQuery
- Experience in building user interfaces for websites and web applications
- Strong understanding of PHP back-end development
- Knowledge of code versioning tools such as Git and SVN
- Experience with debugging tools like Chrome Inspector or Firebug
- Ability to convert comprehensive layout designs into working HTML pages
- Bachelor's degree in computer science or a related field (preferred)
- Excellent communication skills for client interaction

Who we are:

RnD Technosoft is a dynamic and innovative IT solutions provider, established in 2018, with a vision to deliver cutting-edge technological services. Based in Vapi, Gujarat, the company specializes in mobile app development, website design and hosting, web application development, SEO and digital marketing, graphic design, API integration, and CMS solutions.

What we offer:

1. Flexible Office Timings
2. 13 Paid Leaves + 11 Holidays
3. On time Salary
4. Statutory benefits like PF and ESIC
5. Celebrations - Birthday, Festivals, Events, etc
6. Technical Growth
7. Good working environment

Job Title: Web Developer (Node.js)

Ideal Candidate:

As an ideal candidate, you're a Web Developer (Node.js) who knows how to turn complex requirements into scalable, high-performance web applications. Your focus will be on building robust backend services, integrating APIs, and collaborating with front-end developers to deliver seamless user experiences. Let's build innovative web solutions—and take your career—to the next level!

What you'll be doing:

- Strong knowledge in JavaScript Object Oriented Programming
- Strong Knowledge of Node.js and in any framework development
- Good Experience in Node.js Module/Library development
- Proficient understanding of code versioning tools, such as Git
- Working experience with MongoDB or equivalent persistent store (Nosql database)
- Support existing and new feature bugs, prod support and fixing
- Develop robust and scalable software applications using Node.js
- Design and implement RESTful APIs for integration with front-end applications
- Collaborate with cross-functional teams to define, design, and ship new features
- Troubleshoot and debug issues, and perform code reviews to ensure high code quality
- Stay up-to-date with emerging technologies and best practices

To Succeed this role:

- Proficient in Node.js and JavaScript, with a good understanding of server-side templating languages
- Experience with Express.js or similar web application frameworks
- Knowledge of asynchronous programming and event-driven architecture
- Familiarity with databases such as MongoDB, MySQL, or PostgreSQL
- Understanding of front-end technologies such as HTML5, CSS3, and JavaScript frameworks like React or AngularJS
- Experience with version control systems such as Git

- Excellent communication and teamwork skills
- Bachelor's degree in Computer Science, Engineering, or related field (preferred)

Who we are:

RnD Technosoft is a dynamic and innovative IT solutions provider, established in 2018, with a vision to deliver cutting-edge technological services. Based in Vapi, Gujarat, the company specializes in mobile app development, website design and hosting, web application development, SEO and digital marketing, graphic design, API integration, and CMS solutions.

What we offer:

1. Flexible Office Timings
2. 13 Paid Leaves + 11 Holidays
3. On time Salary
4. Statutory benefits like PF and ESIC
5. Celebrations - Birthday, Festivals, Events, etc

Job Title: Web Developer (Laravel)

Ideal Candidate:

As an ideal candidate, you're a Web Developer (Laravel) who knows how to turn innovative ideas into secure, scalable, and high-performing web applications. Your focus will be on leveraging the Laravel framework to build robust back-end systems, integrating databases and APIs, and collaborating with front-end teams to deliver seamless user experiences. Let's develop outstanding web solutions—and take your career—to the next level!

What you'll be doing:

- Developing and maintaining functional and user-friendly websites and web applications.
- Collaborating with cross-functional teams to gather and understand requirements and implement effective solutions.
- Writing well-structured, efficient, and maintainable code using appropriate programming languages and frameworks (e.g., HTML/CSS, JavaScript, JQuery, Ajax, Laravel, etc.).
- Conducting thorough testing and debugging to ensure optimal performance and functionality.
- Keeping up-to-date with industry trends and best practices in web development.

To Succeed this role:

- Bachelor's degree in Computer Science, Web Development, or a related field (or equivalent experience).
- Proven experience as a web developer, with a strong portfolio showcasing your skills and projects.
- Experience with front-end frameworks (e.g., HTML, CSS, JavaScript, JQuery) and back-end technologies (e.g., Laravel).
- Knowledge of database systems and SQL.
- Familiarity with version control systems, such as Git.

Who we are:

RnD Technosoft is a dynamic and innovative IT solutions provider, established in 2018, with a vision to deliver cutting-edge technological services. Job Title: UI/UX Developer

Ideal Candidate:

As an ideal candidate, you're a UI/UX Developer who knows how to transform user needs and creative concepts into intuitive, visually engaging digital experiences. Your focus will be on designing seamless interfaces, conducting user research, and iterating on feedback to ensure products are both user-friendly and aesthetically appealing. Let's enhance our user experience—and your career—to the next level!

What you'll be doing:

- Conducting user research and analysis to understand user needs, preferences, and behaviors.
- Creating wireframes, prototypes, and user flows to visualize and communicate design ideas.
- Collaborating with cross-functional teams including product managers, developers, and marketers to ensure alignment of design objectives with business goals.
- Iterating on designs based on user feedback, usability testing, and data analysis.
- Ensuring consistency and coherence across the user interface by following design guidelines and standards.
- Staying updated on industry trends, best practices, and emerging technologies in UI/UX design.
- Advocating for user-centered design principles and advocating for the user throughout the design process.
- Presenting design concepts and solutions to stakeholders and obtaining feedback for refinement.

To Succeed this role:

- Bachelor's degree in Design, Human-Computer Interaction, or a related field (or equivalent experience).
- Proven experience in UI/UX design, with a strong portfolio showcasing your design process and projects.
- Proficiency in design tools such as Sketch, Adobe XD, Figma, or similar software.
- Solid understanding of interaction design principles, usability, and accessibility standards.

- Ability to empathize with users and translate their needs into intuitive and engaging design solutions.
- Excellent communication and collaboration skills, with the ability to articulate design decisions and rationale effectively.
- Attention to detail and a passion for creating delightful user experiences.
- Ability to work both independently and collaboratively in a fast-paced, dynamic environment.

Who we are:

RnD Technosoft is a dynamic and innovative IT solutions provider, established in 2018, with a vision to deliver cutting-edge technological services. Job Title: Social Media Manager

Ideal Candidate:

As an ideal candidate, you're a Social Media Manager who knows how to transform creative strategies into vibrant online communities and measurable brand growth. Your focus will be on crafting engaging content, building authentic relationships with audiences, and driving brand visibility across multiple social platforms. Let's amplify our digital presence—and your career—to the next level!

What you'll be doing:

- Developing and implementing social media strategies to increase brand awareness and engagement.
- Creating and curating engaging content for various social media platforms, including Facebook, Twitter, Instagram, LinkedIn, etc.
- Monitoring social media channels for industry trends and competitor activity.
- Analyzing social media metrics and preparing regular reports to track performance.
- Collaborating with the marketing team to align social media efforts with overall marketing objectives.
- Managing social media advertising campaigns and budgets.

To Succeed this role:

- Bachelor's degree in Marketing, Communications, Journalism, or related field
- Proven experience in social media management
- Strong written and verbal communication skills
- Creative thinking and content creation
- Understanding of social media analytics
- Strategic mindset
- Project management skills
- Team collaboration

Who we are:

RnD Technosoft is a dynamic and innovative IT solutions provider, established in 2018, with a vision to deliver cutting-edge technological services. Job Title: SEO - Search Engine Optimisation

Ideal Candidate:

As an ideal candidate, you're an SEO Specialist who knows how to turn data-driven strategies into impactful online visibility. Your focus will be on optimizing search engine rankings, conducting keyword research, and enhancing website performance to drive organic traffic. Let's take our online presence—and your career—to the next level!

What you'll be doing:

- Conducting keyword research and analysis to identify opportunities for website optimization.
- Implementing on-page and off-page SEO strategies to improve search engine rankings.
- Performing technical SEO audits to identify and resolve website issues affecting search visibility.
- Collaborating with content creators to develop SEO-friendly content.
- Monitoring and reporting on SEO performance using analytical tools.

To Succeed this role:

- Bachelor's degree in Marketing, Business, or a related field (or equivalent).
- Proven experience in SEO and digital marketing.
- In-depth knowledge of SEO techniques, tools, and best practices.
- Familiarity with SEO Tools, like SEMrush, Ubersuggest, Screaming Frog & Ahref.
- Familiarity with web analytics tools, such as Google Analytics.
- Strong analytical and problem-solving skills.
- Excellent written and verbal communication abilities.
- Ability to work independently and as part of a team.

Who we are:

RnD Technosoft is a dynamic and innovative IT solutions provider, established in 2018, with a vision to deliver cutting-edge technological services. Job Title: Quality Analyst Tester

Ideal Candidate:

As an ideal candidate, you're a Quality Analyst Tester who knows how to turn detailed requirements into thorough testing strategies that ensure flawless, high-quality software. Your focus will be on identifying bugs, validating functionality, and enhancing user experience through meticulous testing and collaboration with development teams. Let's elevate our product quality—and your career—to the next level!

What you'll be doing:

- Develop detailed test plans, cases, and scripts tailored to React and Laravel applications.
- Perform manual and automated testing to validate application functionality against requirements.
- Identify, document, and track defects using bug tracking tools. Collaborate with developers for resolution.

- **React Testing:**
 - ❖ Test React components for rendering accuracy and user interactions using tools like Jest and React Testing Library.
 - ❖ Ensure proper state management using Redux or Context API.

- **Laravel Testing:**
 - ❖ Validate backend functionality, including API endpoints, database interactions, and business logic.
 - ❖ Perform unit testing using PHPUnit or similar frameworks.

- Verify seamless integration between React front-end and Laravel back-end components.
- Assess application speed, scalability, and responsiveness under varying conditions.
- Ensure new changes do not negatively impact existing features.
- Maintain comprehensive records of test results, defect reports, and testing processes.

- Work closely with cross-functional teams to provide feedback on design and implementation.

To Succeed this role:

- Bachelor's degree in Computer Science, IT, or related field.
- Proven experience in software testing with a focus on React and Laravel frameworks.
- Familiarity with front-end testing tools (e.g., Jest, React Testing Library) and Laravel testing tools (e.g., PHPUnit)
- Proficiency in JavaScript (React) and PHP (Laravel).
- Strong knowledge of RESTful APIs and database testing (MySQL/PostgreSQL).
- Experience with version control systems like Git.
- Familiarity with CI/CD pipelines for automated testing.
- Excellent analytical skills for problem-solving.

Who we are:

RnD Technosoft is a dynamic and innovative IT solutions provider, established in 2018, with a vision to deliver cutting-edge technological services. Job Title: Project Manager

Ideal Candidate

As an ideal candidate, you're a Project Manager who transforms strategic plans into successful, on-time, and within-budget project deliveries. Your focus will be on leading cross-functional teams, managing resources efficiently, mitigating risks, and ensuring clear communication among stakeholders to drive project goals and business growth. Let's execute excellence—and elevate your career—to the next level!

What you'll be doing:

- Define project scope, objectives, and deliverables in collaboration with stakeholders.
- Lead cross-functional teams, fostering collaboration and ensuring alignment with project goals.
- Maintain regular communication with stakeholders to provide status updates, address concerns, and manage expectations.
- Identify potential risks and develop mitigation strategies to minimize impact on project outcomes.
- Ensure that all project deliverables meet quality standards and align with organizational policies.
- Track project progress against milestones; prepare and present reports on project status to stakeholders.
- Foster a positive team environment by providing feedback, recognizing achievements, and ensuring team members have the resources they need to succeed.
- Verify that all project activities comply with company policies, industry regulations, and best practices in project management.
- Act as the primary point of contact between stakeholders and the project team, ensuring clear communication regarding project objectives and changes.
- Stay updated on industry trends and best practices in project management to continuously improve processes and methodologies used within the organization.

To Succeed this role:

- Bachelor's degree in Computer Science, Engineering, or a related field (or equivalent experience).
- Proven experience in Android development, with expertise in Java or Kotlin, Flutter and other Hybrid Languages.
- Strong knowledge of Android SDK, Android Studio, and related development tools.
- Familiarity with RESTful and JSON APIs and integrating them into Android applications.
- Proficient understanding of code versioning tools, such as Git.
- Excellent problem-solving, analytical, and debugging skills.
- Strong communication and collaboration abilities within a team environment.

Job Title: Motion Graphic Designer

Ideal Candidate:

As an ideal candidate, you're a Motion Graphic Designer who brings creative concepts to life through dynamic animation and compelling visual storytelling. Your focus will be on designing and producing engaging motion graphics and video content across digital platforms, collaborating closely with creative teams and clients to ensure every project aligns with brand vision and objectives. Let's animate our ideas—and your career—to the next level!

What you'll be doing:

- Develop visually stunning and engaging animations and videos that communicate complex ideas and concepts.
- Work closely with our team of designers, writers, and developers to create compelling visual content that meets our clients' needs.
- Manage multiple projects simultaneously, ensuring timely delivery and high-quality output.
- Use design software to create motion graphics, animations, and visual effects for different media platforms.
- Assess and troubleshoot issues with motion graphics to ensure seamless project execution.
- Provide creative vision to the editing process, bringing your own style to create beautifully composed work.

To Succeed this role:

- Bachelor's degree in Motion Graphics, Animation, Graphic Design, or a related field (or equivalent experience)
- Proven experience as a motion graphic designer, with a strong portfolio demonstrating creativity and a solid understanding of motion design principles.
- Proficiency in motion graphics software and tools, such as Adobe After Effects, Premiere Pro, Canva, Blender, or similar.
- Excellent animation and visual storytelling skills, with the ability to translate concepts into engaging motion graphics.
- Strong attention to detail and the ability to meet project deadlines.
- Strong communication and collaboration abilities within a team environment.

Job Title: IOS Developer

Ideal Candidate:

As an ideal candidate, you're an iOS Developer who transforms innovative ideas into seamless, high-performance mobile applications for Apple devices. Your focus will be on designing, developing, and maintaining user-friendly apps using Swift or Objective-C, collaborating with cross-functional teams, and ensuring each product meets Apple's standards for quality and security. Let's create exceptional digital experiences—and take your career—to the next level!

What you'll be doing:

- Collaborating with cross-functional teams to design, develop, and maintain high-quality iOS applications.
- Implementing and improving features, functionality, and user interfaces for our iOS apps.
- Ensuring the performance, quality, and responsiveness of applications.
- Participating in code reviews, debugging, and troubleshooting to optimize app performance.
- Staying up-to-date with the latest trends and technologies in iOS development.

To Succeed this role:

- Bachelor's degree in Computer Science or a related field (or equivalent experience).
- Proven experience in iOS development, with expertise in Swift and Objective-C
- Strong knowledge of iOS frameworks, such as UIKit, Core Data, Core Animation, etc.
- Familiarity with RESTful APIs and integrating them into iOS applications.
- Proficient understanding of code versioning tools, such as Git.
- Excellent problem-solving, analytical, and debugging skills.
- Strong communication and collaboration abilities within a team environment.

Job Title: HR Manager

Ideal Candidate:

As an ideal candidate, you're an HR Manager who excels at turning organizational vision into a thriving workplace culture and operational excellence. Your focus will be on building strong employee relations, leading talent acquisition and development, and ensuring compliance with HR best practices and legal standards. By aligning HR strategies with business objectives, you drive employee engagement, foster professional growth, and support sustainable organizational success. Let's advance our people—and your career—to the next level!

What you'll be doing:

- Leading recruitment efforts, including sourcing, screening, and interviewing candidates.
- Coordinating employee onboarding and orientation programs.
- Managing employee relations, including conflict resolution and disciplinary actions.
- Overseeing performance management processes, including goal setting and performance reviews.
- Developing and implementing HR policies and procedures to ensure compliance with employment laws and regulations.
- Conducting training and development programs to enhance employee skills and knowledge.
- Maintaining HRIS (Human Resources Information Systems) databases and records.
- Participating in strategic planning initiatives to support organizational growth and development.

To Succeed this role:

- Bachelor's degree in Human Resources, Business Administration, or related field.
- Proven experience in HR management or related roles.
- Strong interpersonal and communication skills.
- Knowledge of employment laws and regulations.
- Ability to handle confidential information with discretion.

- Attention to detail and strong organizational skills.
- Proficiency in HRIS software and Microsoft Office Suite.
- Ability to work independently and collaboratively in a team environment.
- Certification in Human Resources (e.g., SHRM-CP, PHR) is preferred but not required.

Who we are:

RnD Technosoft is a dynamic and innovative IT solutions provider, established in 2018, with a vision to deliver cutting-edge technological services. Job Title: Full Stack Developer

Ideal Candidate:

As an ideal candidate, you're a Full Stack Developer who knows how to turn innovative ideas into secure, scalable, and high-performing web applications. Your focus will be on leveraging both front-end and back-end technologies to build robust, seamless solutions, integrating databases and APIs, and collaborating across teams to deliver exceptional user experiences. Let's develop outstanding web solutions—and take your career—to the next level!

What you'll be doing:

- Design, develop, and maintain both front-end and back-end components of web applications.
- Build user interfaces with HTML, CSS, JavaScript, and modern frameworks (e.g., React, Node.js).
- Develop robust server-side logic and APIs using languages such as Node.js, PHP.
- Create and manage databases (e.g., MySQL, PostgreSQL, MongoDB) to support application functionality.
- Ensure cross-platform optimization and responsiveness for web and mobile devices.
- Collaborate with designers, product managers, and other developers to deliver high-quality solutions.
- Participate in the full software development lifecycle, from planning and design to deployment and maintenance.
- Write clean, efficient, and well-documented code, adhering to best practices and coding standards.
- Troubleshoot, debug, and upgrade existing software to improve performance and user experience.
- Stay current with emerging technologies and industry trends to continuously improve development processes.

To Succeed this role:

- Bachelor's degree in Computer Science, IT, or a related field.
- Proven experience as a Full Stack Developer or similar role in software development.
- Proficiency in front-end languages and frameworks: HTML, CSS, JavaScript, and at least one modern framework (React).
- Proficiency in back-end languages: Node.js, PHP, or similar.
- Experience with database technologies: MySQL, PostgreSQL, MongoDB, or similar.
- Familiarity with RESTful APIs and web services.
- Understanding of version control systems (e.g., Git).
- Strong problem-solving skills, attention to detail, and ability to work independently or as part of a team.
- Excellent communication and organizational skills.
- Familiarity with Agile development methodologies is a plus.

Who we are:

RnD Technosoft is a dynamic and innovative IT solutions provider, established in 2018, with a vision to deliver cutting-edge technological services. Based in Vapi, Gujarat, the company specializes in mobile app development, website design and hosting, web application development, SEO and digital marketing, graphic design, API integration, and CMS solutions.

What we offer:

- 1. Flexible Office Timings**
- 2. 13 Paid Leaves + 11 Holidays**
- 3. On time Salary**
- 4. Statutory benefits like PF and ESIC**
- 5. Celebrations - Birthday, Festivals, Events, etc**
- 6. Technical Growth**
- 7. Good working environment**

Job Title: Digital Marketing Executive

Ideal Candidate:

As an ideal candidate, you're a Digital Marketing Specialist who knows how to turn creative strategies into impactful online campaigns. Your focus will be on building brand awareness, driving engagement, and optimizing performance across various digital platforms. Let's take our marketing—and your career—to the next level!

What you'll be doing:

- Developing and implementing digital marketing strategies to drive brand awareness, engagement, and conversions.
- Managing and optimizing digital advertising campaigns across various platforms (e.g., Google Ads, Facebook Ads, etc.).
- Conducting keyword research and search engine optimization (SEO) to improve website visibility.
- Creating and managing content for social media channels and monitoring their performance.
- Analyzing data and metrics to identify opportunities for improvement and make data-driven marketing decisions.
- Staying up-to-date with industry trends and best practices in digital marketing.

To Succeed this role:

- Bachelor's degree in Business Administration, Marketing, or a related field.
- Sales track record with demonstrated success in achieving targets.
- Proficiency in MS Office and CRM software (e.g., Salesforce).
- Good in communication, negotiation, and interpersonal skills.
- Knowledge of Lead Generation Tools

Job Title: Content Writer

Ideal Candidate:

As an ideal candidate, you're a Content Writer who knows how to transform ideas into compelling, clear, and engaging content that drives audience connection and business growth. Your focus will be on crafting high-quality articles, blogs, social media posts, and marketing materials that resonate with target audiences, enhance brand voice, and support strategic marketing goals. Let's elevate our content—and your career—to the next level!

What you'll be doing:

- Produce engaging, high-quality content that effectively communicates technical concepts and promotes our products and services.
- Collaborate with the development team to understand complex technical information and translate it into clear, concise content for different audiences.
- Create and maintain technical documentation, including user manuals, API documentation, and developer guides.
- Develop content for marketing materials, blog posts, case studies, and social media platforms to increase brand visibility and engagement.
- Conduct research on industry trends, emerging technologies, and competitor analysis to stay updated and incorporate relevant information into content creation.
- Edit and proofread content to ensure accuracy, clarity, and adherence to brand voice and style guidelines.
- Work closely with cross-functional teams, including developers, designers, and marketing professionals, to align content strategy with business goals.

To Succeed this role:

- Bachelor's degree in English, Communications, Journalism, Computer Science, or a related field.(If required)
- Proven experience as a technical writer, content writer, or similar role in the technology industry.
- Strong writing, editing, and proofreading skills with impeccable grammar and attention to detail.
- Ability to distill complex technical information into clear and understandable content for diverse audiences.

- Familiarity with software development concepts, programming languages, and web technologies (JavaScript, Node.js, MongoDB, etc.).
- Proficiency in using content management systems (CMS), project management tools, and collaboration platforms.
- Excellent research skills and the ability to gather information from various sources to create comprehensive and accurate content.
- Self-motivated, organized, and able to manage multiple projects simultaneously while meeting deadlines.
- Strong communication and interpersonal skills, with the ability to collaborate effectively with cross-functional teams.

Job Title: BDM - Business Development Manager

Ideal Candidate:

As an ideal candidate, you're a Business Development Manager who knows how to turn strategic plans into impactful business growth. Your focus will be on fostering strong client relationships, identifying new opportunities, and driving revenue through innovative solutions. Let's take our business—and your career—to the next level!

What you'll be doing:

- Monitor sales performance against targets and analyze business decisions for continuous improvement.
- Train and mentor junior sales staff, helping them manage their Key Result Areas (KRAs).
- Build and maintain long-term relationships with new and existing clients to foster loyalty and repeat business.
- Work closely with marketing, sales, and product teams to align strategies and ensure a cohesive approach to market opportunities.
- Provide constructive feedback on sales performance and customer experiences to improve service delivery.
- Conduct meetings with prospective clients to promote the company's products and services, addressing their specific objectives.
- Mentor and develop entry-level staff into valuable salespeople.
- Provide trustworthy feedback and after-sales support to enhance customer satisfaction.

To Succeed this role:

- Bachelor's degree in Business Administration, Marketing, or a related field.
- Sales track record with demonstrated success in achieving targets.
- Proficiency in MS Office and CRM software (e.g., Salesforce).
- Good in communication, negotiation, and interpersonal skills.

Job Title: BDE - Business Development Executive

Ideal Candidate:

As an ideal candidate, you're a Business Development Executive who knows how to turn strategic visions into impactful growth opportunities. Your focus will be on building strong client relationships, identifying new markets, and driving revenue growth through innovative solutions. Let's take our business—and your career—to the next level!

What you'll be doing:

- Generate leads and build relationships with potential clients to foster company growth.
- Understand client needs and provide tailored solutions through effective presentations and product demonstrations.
- Conduct research on market trends to identify new opportunities and stay ahead of competitors.
- Attend industry events to source potential clients and promote the company's products or services.
- Coordinate and schedule meetings with clients and the Business Development Manager (BDM) to discuss project requirements, proposals, and follow-ups.
- Utilize various online portals and platforms (e.g., LinkedIn, Upwork, People Per Hour, CRM systems) to generate high-quality leads through targeted outreach, content marketing, and social media engagement.
- Collaborate with sales and marketing teams to develop and execute effective business strategies.
- Manage CRM software data, update sales reports, and assist in marketing projects.
- Maintain accurate records of sales activities, revenue forecasts, and client interactions using CRM software.
- Oversee leads generated by Business Development Executives (BDEs), ensuring timely follow-up and conversion into sales opportunities.
- Assist in building and maintaining strong relationships with existing and prospective clients.

To Succeed this role:

- Bachelor's degree in Business Administration, Marketing, or a related field.
- Sales track record with demonstrated success in achieving targets.
- Proficiency in MS Office and CRM software (e.g., Salesforce).
- Good in communication, negotiation, and interpersonal skills.
