🎓 EDUCATION

Bachelors of engineering (Computer science)

Terna engineering college

05/2021 – 06/2025

Nerul Navi Mumbai

🧠 SKILLS

SQL

Mysql

Power BI

Dax formula, Charts

Python

(Pandas, TensorFlow, Numpy, Seaborn)

Machine learning

(Linear regression, Random Forest, Support Vector Machines, Clustering, K-nearest neighbor (knn))

Artificial intelligence (AI)\ML

Prescriptive analytics, GEN AI

👤 PROFILE

Computer Science graduate with strong analytical and problem-solving skills. Proficient in SQL, Excel, Power BI, and Python for data analysis and visualization. Skilled at turning complex data into actionable insights to support business decisions in fast-paced environments

💼 INTERNSHIP

Data analyst intern

Forage (Tata group)

Navi Mumbai

Performed Exploratory Data Analysis (EDA) to assess data quality, GenAI-powered predictive model for customer delinquency risk. Developed an AI-driven collections strategy incorporating workflows.

Security analyst

Forage

Gained hands-on experience in Identity and Access Management (IAM)

Developed expertise in IAM principles.

📁 PROJECTS

E-commerce Sales Analytics:

Cleaning, EDA & Interactive Dashboard (Python, Matplotlib, Streamlit)

Built an end-to-end pipeline on 5K orders: cleaned data quality issues, analyzed category/region performance, quantified discount impact on margins, and shipped a Streamlit dashboard with KPI tracking.

Bank Loan Approval & Credit Risk Analysis

Built end-to-end pipeline to clean and model loan applications; delivered EDA, baseline classifier (Logistic Regression, ROC-AUC), and an interactive Streamlit dashboard for underwriting insights.

🎮 HOBBIES

Learning new tools – reflects curiosity and upskilling.
Sports / Gym – teamwork, discipline, and balance.
