CAREER OBJECTIVE

"Aspiring tech professional with a foundation in software development and design, aiming to contribute to creative and functional projects in a collaborative environment, while continuously expanding my technical and design capabilities."

TECHNICAL SKILLS

- **Programming** : C, Java (Core + Advanced)
- **Web Technologies** : HTML, CSS, JavaScript
- **Frameworks** : Spring, Spring Boot, Spring MVC, Spring Security, Spring Data JPA
- **Databases** : MySQL, SQL
- **Tools & IDEs** : Eclipse, STS
- **Testing Tools** : Postman

PROJECTS

1-Hospital Management System (Java, awt, mysql)

- Built a desktop-based application to manage hospital operations.
- Implemented patient registration, doctor records, appointment scheduling, and billing with CRUD functionality.
- Enhanced efficiency by automating manual operations.

2-BookStore Application (Spring Boot, Spring Data JPA, Thymeleaf, MySQL)

- Developed a web application to manage books with full CRUD operations and search functionality.
- Integrated Spring Data JPA with MySQL for seamless data persistence.
- Designed a responsive UI using Thymeleaf and Bootstrap.

EDUCATION

- **BCA, Sri Sharda Institute of Professional Studies – 2022 – 2025 | 73.40%**
- **Class XII (CBSE), Foundation School – 2021**
- **Class X (CBSE), Sunflower Public School – 2019**

CERTIFICATIONS

- Core Java – NareshIT (2024)
- HTML, CSS, JavaScript – NareshIT (2024)
- Oracle SQL – NareshIT (2024)
