PROFILE

Final-year B.E. Computer Engineering student (CGPA: 7.76) skilled in Core Java, OOPs, MERN Stack, and Core MySQL, recognized as an Efficient Problem Solver.

Built projects including NewsWave (React.js) and Memories (MERN full-stack).

EXPERIENCE

Intel India & Gujarat Technological University (GTU)

INTEL® AI for Entrepreneurships — Feb 2025 – July 2025

Completed a certified training focused on practical applications of AI manufacturing, including automation, quality control, and predictive maintenance.

EDUCATION

Government Engineering College, Dahod — July 2022 - 26

Bachelor of Engineering in Computer — CGPA: 7.76/10

PROJECTS

NewsWave — React Js

Developed NewsWave a responsive React js web application that fetches real-time news using the NewsAPI, with features like keyword-base search, category filtering and dynamic UI rendering.

Memories — React Js + Node Js + MongoDB

Developed a full-stack social media web app with authentication, enabling users to create, read, update, delete, and like posts. Implemented frontend using React, backend with Node.js & Express, and database management with MongoDB. Delivered secure, scalable, and user-friendly CRUD operations.

TECHNICAL SKILLS

Programming Languages

Java, JavaScript, HTML5, CSS3.

Frameworks and Libraries

React JS, Node JS, Express JS.

Database

MySQL, MongoDB

Others

Git, GitHub, VS Code.

CERTIFICATION

TOP 4.2% Leet-coder — LeetCode

[View Certification.](#)

Java & OOP's Concepts — Udemy.

[View Certification.](#)

MERN Stack Development(React+ Node JS) — Infosys Springboard.

[View Certification.](#)

AI for Entrepreneurship — Intel Program.

[View Certification.](#)

SOFT SKILL

Strong Problem-Solving abilities.

Effective Communication Skill.

Collaboration & Teamwork.
